

IMPRESSIVE WIN FOR OUR YEAR 7 FOOTBALLERS!

On a wet, windy and, as you can see from the photo, dark evening, the boys travelled to Farnham to play Weydon.

Always in control of a match where both sides played good football in challenging weather conditions, Collingwood were worthy winners (4-1). Slick interplay and lots of endeavour saw goals from Aston Dempsey, Freddie Hoare and Leon Jessop (2).

Squad: Bradley McKinnon, Harry Phillips, Adam Robson, Jacob Sturt, Christian Higgs, Josh Mears, Freddie Hoare, Aston Dempsey, Leon Jessop, Eli Loveday

We have a break from A game league and cup matches until after February half term. B matches are in planning stages at the moment for games in the coming weeks. We have a 5-a-side tournament on Friday 18 November – squad to be announced.

Mr San Emeterio - Year 7 Football Manager / KS4 Progress Leader

ALICE RECEIVES PROFESSIONAL GOLF COACHING FOLLOWING COMPETITION WIN!

Earlier this year Alice Taylor 7F competed in a Justin Rose Junior Telegraph qualifying event and won the Net competition. Over 17500 junior golfers took part in qualifying events this year. Her prize was to join the gross winners during their week in Quinta do Lago whilst they competed for the main championship prize. Alice enjoyed a coaching session with a local golf professional, some media training with Sky Sports and The Daily Telegraph, and a round of golf on the South Course (and of course the lovely sunshine!!).

It has given her a real taste of competing at the highest junior level and she hopes to qualify again in the future. We're all very proud of her achievements, well done Alice!

Mr Andrews - Year Manager - Year 7 / PE Department

DATES FOR YOUR DIARY - DON'T MISS OUT!

- Thursday 10 November:** Year 12 Parents' Evening (Virtual), 4.30pm until 7.00pm
- Monday 14 November:** Odd Socks Day
- Friday 18 November:** Non-uniform Day in Support of Children in Need
- Thursday 24 November:** Year 13 Parents' Evening (Virtual), 4.30pm until 7.00pm
- Friday 25 November:** Sixth Form Application Deadline
- Monday 28 November:** Additional College Day Closure
- Tuesday 29 November:** Internet Safety Seminar for Parents/Carers of Students in Years 7 and 8, 6.30pm until 7.45pm, Kingston Theatre

BUS COMPLAINTS

We are receiving an increasing number of complaints from our bus companies regarding mess, inappropriate behaviour and poor language from our students that is falling well below our expected standards. We will be speaking to students in assemblies about this but would also be appreciative of you reinforcing our message at home.

I would like to remind you that bus companies have the right to refuse to transport students who are not able to behave in a sensible, courteous and orderly manner, and parents would then have to sort alternative arrangements for attending College on time.

Thank you in advance for your support and co-operation.

Mr San Emeterio - KS4 Progress Leader and Bus Liaison

Year 11 English Revision Autumn Term 2022

Date	Session
Wednesday 9 November	Language Paper 2, Section A Mrs Woods (Kingston Theatre)

LANGUAGES REVISION MATERIALS

Please note that if you have paid for Languages Revision Materials, these will be distributed as soon as possible. We are sorry for the delay in getting these to your son/daughter.

Ms Baudain - Head of Languages Department

ECO CLUB NEWS

The last two after College sessions of Eco Club have involved the students going to the Eco Garden to begin resurrecting it! Mr Buocik, Miss Cornelius and I have helped oversee some really hard work from the students in the garden.

We have cut back bramble bushes, weeded, cleared the pathway, cut down a dead tree, mowed the grass outside the garden, removed weeds from the pond and MORE! It has been great seeing students showing initiative and taking ownership regarding what we do in the garden. The enthusiasm from all involved has been fantastic!

Eco Club takes place on Thursdays after College, 3.10pm until 4.10pm (M3). We would love more students and staff to get involved. If you have any questions or want to find out more, please do email me.

Mr Ballard - Environmental Sustainability Co-ordinator

JOB VACANCIES

There are a number of vacancies we are currently recruiting for at Collingwood. Many of these vacancies are during school hours and term time (plus INSET days).

Casual School Minibus Driver

Contract Type: Casual Hours

Remuneration: £9.50 per hour (pay award pending) plus holiday allowance

The appointed person will be responsible for tasks related to driving the College minibus for a number of College-related activities including:

- ◆ College Trips
- ◆ Sports Fixtures
- ◆ Occasional weekend duties.

The ideal candidate will have a clean UK D1 driving licence. You will be required to take a short minibus driving assessment arranged by the College. You must also be over 21 and under 69 for insurance purposes.

You will be employed on a casual basis, with activities generally taking place during College term dates but with occasional trips organised outside this.

Exam Invigilators

Contract Type: Casual

Remuneration: £9.50 Per hour (pay award pending) plus holiday allowance

An exciting opportunity has arisen for a number of strong candidates to join the Invigilation team at Collingwood College in Camberley. This role is varied, and we are looking for an adaptable, flexible and resourceful individual able to cope in a high-pressure environment and deal with constantly changing priorities.

Working within the school Exams team to deliver services to the school community.

Maintaining a positive and thriving school environment for our learners by providing a punctual and professional service in all aspects of the daily administration of examinations.

Must be available during the exam and mock exam periods.

Classroom Support Assistant – ICT

Contract Type: Permanent, Term Time plus inset days

Hours per week: 11.5

Remuneration: £5,343 to £5, 899 per annum (actual) (pay award pending), 39 weeks a year

We seek to appoint an enthusiastic, dedicated, efficient and organised team player in this busy, exciting and successful school.

Working as part of a team, the IT Classroom Support Assistant provides essential IT support to teachers and students across the school.

Reporting to the Head of TVIBE, the role offers the right candidate the opportunity to provide a range of classroom and first line technical support and assistance to the College community.

The post offers the right candidate the opportunity to work with a high-performing team and enthusiastic students. Regular training and career development will be provided. The role requires strong organisation and inter-personal skills, very good attention to detail, reliability, commitment and the ability to work both as part of a team and independently.

The ideal candidate will be passionate about education. It is also the perfect opportunity for a graduate who may be considering a career in teaching to showcase your determination and ambition.

JOB VACANCIES

CONTINUED FROM PAGE 5

SEN Administrator

Contract Type: Permanent, Term Time plus inset days

Hours per week: 10 hours per week (2 days per week 5 hours per day)

Remuneration: £4,303 per annum (actual) (pay award pending), 39 weeks a year

An exciting opportunity has arisen for a strong candidate to support teaching and learning at Collingwood College in Camberley. This role is varied, and we are looking for an adaptable, flexible and resourceful individual able to cope in a high-pressure environment and deal with constantly changing priorities. In this role you will be working with the SEN administration team to deliver services within the SEN Resource Unit, maintaining a positive and thriving school environment for our learners

Intervention Cover Supervisor

Contract Type: Fixed Term to July 2023, Term Time plus inset days

Hours per week: 30.5 hours per week

Remuneration: £15,944 to £17,658 per annum (actual) (pay award pending), 39 weeks a year

We are looking for an enthusiastic, caring individual to provide intervention for identified students to help them make progress in specified subjects. The role can include working in class with targeted students to ensure understanding and catch up; small group work focusing on key concepts to help plug gaps.

There will also be some general cover and this involves delivering lessons and providing supervision of students with a range of abilities across the 11-16 age range, facilitating the progression of students learning.

For all our current vacancies and Candidate Information Packs, including Job Descriptions and application forms, please visit the college website: [Vacancies at Collingwood College](#)

Applications can be emailed to hr@collingwood.surrey.sch.uk

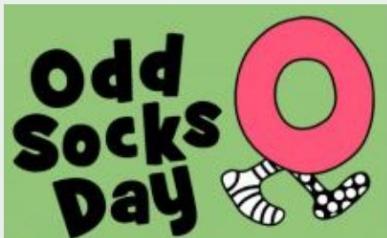

Collingwood College is committed to safeguarding and promoting the welfare of children and young people and expects all staff and volunteers to share this commitment. The successful candidate will be required to obtain an Enhanced Disclosure with the Disclosure and Barring Service. Collingwood College is an Equal Opportunities Employer.

ATTENDANCE - LEAVE OF ABSENCE/ HOLIDAY REQUESTS

Just to remind parents/carers that if they take their children out of school without authority, they will be liable to receive a penalty notice. Currently the amount payable under a penalty notice is £60.00 per parent/carer per child if paid within 21 days. Thereafter the amount increases to £120.00 if paid between 21 and 28 days. If the penalty notice remains unpaid after 28 days, the Local Authority will consider a prosecution in the Magistrates Court. Please note that penalty notices are issued per parent/carer per child so a family of two parents and two children will receive 4 penalty notices.

Library Newsletter

Anti-Bullying Week - Odd Socks Day

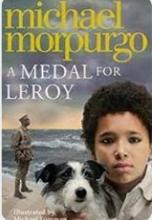

The week commencing Monday 14 November is Anti-bullying Week and we are inviting students and staff to come into College wearing odd socks to participate in 'Odd Socks Day' on Monday 14 November, to celebrate being unique and to make a stand against bullying. This is a national initiative from the Anti-bullying Alliance. The theme this year is 'Reach out'.

The message of the odd socks is for students and staff to promote acceptance and kindness to each other and to all people, no matter what differences they have. Available in the library is a fun colouring activity, come and colour odd socks then they will be hung on our display board.

This month in the library, we are continuing to remember the fallen. See below two books from our war themed section which is available in the library.

A Medal for Leroy

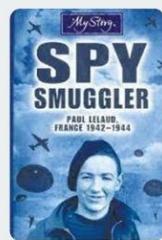

Inspired by the true story of Walter Tull, the first black officer in the British army, this is a stunning new novel of identity and loss. Michael doesn't remember his father, an RAF pilot lost in the war, then Auntie Snowdrop gives Michael a medal, followed by a photograph, which begin to reveal a hidden history. A story that will change everything – and reveal to Michael who he really is.

The story unravels secrets on the way, which gives the reader moments of suspense, leaving them wanting more. A real page turner! The short chapters of this book, and understandable language used, gives this book a good flow, making this an easy read. A powerful story told by a great author. Book review on goodreads.

Spy Smuggler

Surely if we could smell the fires, others could as well. A German patrol would smell them for sure! Then I was aware of a large shape looming up in the night sky, its wings wide. There were no lights showing on it. Down, down, down it came, lower and lower. I could hear the sound of its engine slowing and I thought with alarm, "If it goes any slower it will crash in the field, and what will we do then?" Paul Leland is a 14-year-old boy living in rural France. He has been living under Nazi occupation since 1940. Working with the Resistance cell in his village, Paul is a crucial figure in the 'escape route' for allied POWs and agents.

An intriguing story about the Resistance in France during WWII told from the point of view of a 14-year-old boy. This book has spies, gunfire and car chases for a valid look at occupied France. Book review on goodreads.

Can you please encourage your son/daughter to return any overdue library books/DVDs as soon as possible to avoid possible behaviour points. If you have any issues, please email: s.blay@collingwood.surrey.sch.uk

Supporting children and young people through the death of a loved one.

Helpline - 01342 313895
Monday - Friday
9.30am - 12.30pm.. .

How we help

We provide information, advice and guidance to help support bereaved children and young people and those facing the death of a loved one. We support families in Surrey, Mid Sussex, Crawley and West Kent.

Our level of support can include:

- Guidance, support, and information
- Signposting to services
- Information sharing and bereavement guidance to schools and other relevant organisations
- Access to social activities and events to meet other families
- Family grief group programmes (post bereavement)
- Online Information sessions for parents, carers, and professionals
- Individual, sibling and family support work with children in the family home or at school (preparing for loss team)

We are here for you. Our vision is to ensure that no child or young person faces the death of a loved one alone.

CAREERS NEWSLETTER

This newsletter is a collation of all the opportunities we have heard about from employers and universities.

Please use the links included to read more information and apply to anything you are interested in.

Links are underlined.

Remember, you can use [Unifrog](#) and [Career Pilot](#) any time to research your career options, take part in quizzes and see which jobs might suit you.

OPPORTUNITIES

Around 60% of young people are 'worried' or 'extremely worried' about climate change, (according to a global survey conducted by Bath University in 2021) so we want to use this week's newsletter to celebrate [Green Careers Week](#) and highlight the amazing career pathways you can follow to improve the future climate.

In a recent article by Global Citizen, there are six main areas where green careers – or careers and jobs where environmental protection will be a major thrust – will really flourish, they are as follows:

- Green Design
- Environmental Scientist
- Green Home Architect / Builder
- Sustainability Consultant
- Wave Power Engineer
- Urban Agriculture

On 10th November, there is a "Protecting our Planet" day, full of talks about different areas of the World, from forests to deserts to oceans. Expert speakers will discuss what is being done and what more needs to be done to protect that particular area of the Planet. [Click here](#) to see the full schedule and sign up to watch the ones you are interested in.

In their own words, the Environment Agency (EA) "works to create better places for people and wildlife, and support sustainable development" and as such we couldn't think of a more apt government agency to partner with for Green Careers Week. Established in 1996, the EA employs 10,600 passionate people with offices in Bristol and London. Check out their [YouTube Channel](#) & [Careers Website](#) to learn more.

JOB OF THE WEEK

Rather than spotlight just one job for you this week, we are going to share the whole database of Green Jobs!

You can [check them out here](#) to see how much you could earn, what hours you may work and the estimated growth of demand for the job role by 2026.

LABOUR MARKET INFORMATION FACT

Many green skills are on the rise and are among some of the fastest growing skills in the economy.

Sustainable Fashion, Environmental Services and Sustainable Growth have all grown by over 60% in the last 5 years.

If you have any questions or need support, please email careers@collingwood.surrey.sch.uk

[Source](#)

CAREERS NEWSLETTER

OPPORTUNITIES

 This Month will be 27th annual 'Conference of the parties' (COP 27) and in order to tie into this global event BBC Bitesize Careers will be launching brand new content all around 'Green Careers and jobs to save the planet'. Check out [BBC Bitesize Careers](#) from 7th Nov to watch videos about people working in jobs like Sustainable Engineer, Fuel Scientist and Sustainable Events Manager.

 STEM Learning UK have now launched their new [Green Careers Webpage](#). You can see a range of Green Careers explored, the Virtual Green Careers Fair, links to the Climate Change Educational Partnership initiative as well as how to become a Climate Ambassador.

 LinkedIn's Global Green Skills Report, "An Action Plan for Climate Change", is now available to read. It shares key information about current hiring trends for Green Jobs and where action can be taken to improve recruitment in this industry. The report has lots of diagrams that make the information really accessible for visual learners. [Check it out here.](#)

LinkedIn's Global Green Skills Report categorises job roles into the following four "green" categories:

Green

Eg: solar technician

Greening

Eg: civil engineer

Greening Potential

Eg: data analyst

Not Green

Eg: nurse

Green jobs are ones that cannot be performed without extensive knowledge of green skills.

Greening jobs are ones that could be performed without green skills, but typically require at least several green skills.

Think about the job role(s) you are considering doing in the future, which one of these categories does it fit into?

If you have any questions or need support, please email careers@collingwood.surrey.sch.uk

EMPLOYER SPOTLIGHT

"Beyond our atmosphere, the need for green and sustainable thinking is also vital for protecting our space environment. The UK is a world leader in supporting innovative missions to clean up dangerous space debris, so that space can be used safely and sustainably by everyone."

You can read more about UK Space Agency jobs [here](#).

UNI SPOTLIGHT

Unis are under increasing pressure to be kinder to the environment – but how many are actually taking action? These university rankings reveal the best and worst places for sustainability.

[Here are the comprehensive results charting the environmental and ethical performance of unis in the UK.](#)

The Parents' Guide to

Green Careers Week 2022

Green Careers Week is a fantastic new initiative being launched between 7th and 12th November 2022 to provide young people with an insight into careers that specifically protect the environment and will help the UK achieve its pledge of reaching Net Zero by 2050.

Led by National Careers Week in partnership with a wide range of organisations including the Met Office, the Natural History Museum, The Royal Society, STEM.org.uk, UK Space Agency, and WWF, Green Careers Week promises to be an inspiring week, with plenty of information on how young people can get actively involved in careers that focus on positive environmental impact and change.

► Why Green is a priority for teens

According to a 2021 study by Bath University (speaking to 10,000 young adults across 10 countries including the UK), two-thirds of the 16-25 year olds surveyed were worried about climate change and three-quarters felt the future was frightening. Almost half said the way they feel about climate change adversely affects their day-to-day lives.

Young people want (and need) to be involved in finding solutions to our environmental challenges, so it's vital that we provide opportunities to show them how they can play an active role within the world of work. Knowing how they can find careers that play a significant part in improving our environmental credentials should contribute towards restoring their confidence in a positive and sustainable future.

► What is a Green career?

In the simplest terms, green careers include roles within businesses that benefit the environment and conserve natural resources. These roles have been growing over recent years and are bound to increase further as the necessity for greater energy efficiency and sustainability becomes more urgent. Some opportunities are more obvious than others, so let's take a closer look.

The built environment

Building and construction accounts for nearly 40% of global CO₂ emissions according to the World Green Building Council. Whether it's creating new structures or modifying existing ones, there's no doubt that any role within the built environment will need to look at ways of improving environmental impact. This reaches across architects, civil and structural engineers, manufacturers, procurement managers, site workers, and transportation managers to name a few. Notwithstanding roles within all of these areas can vary in skill level, each will have a significant part to play. Think outside the box for different careers:

- ▶ **Building performance analyst** - identify performance issues with energy, maintenance and comfort in buildings
- ▶ **Recruitment consultant** - specialising in permanent or temporary assignments within environment, planning, energy or civils
- ▶ **Waste Operations manager** - implementing best practices and ensuring compliance

Consultancy

Not everyone is practical and hands-on, but that doesn't mean there aren't roles for people with business and project management skills to contribute to helping businesses go green. Sustainability consultants advise how companies can lower their carbon footprint through assessing and evaluating the business. What's interesting here is that virtually all large companies have sustainability teams. This means for students keen on certain industries but without the relevant skills (say film, but no acting or production ability) it's possible to get a role in that sector looking at their sustainability impact.

Likewise, choosing to work for a company that has a reputation for ethical practices won't tie them into to a job role but will enable them to pursue work with companies that are aligned with their values. Companies with well-regarded environmental initiatives operating in the UK include: Divine Chocolate, Innocent Drinks and Neal's Yard.

Energy

Energy is crucial to climate change, not least because many greenhouse gases are generated through energy production. Renewable energy (where resources are replenished faster than they are consumed) will play an important role in moving towards a green Britain. Renewable energy sources include hydropower, bio, solar and wind energy. Roles can include project managers, solar power technicians, tidal power developers and wind energy engineers. Less obvious ways to be involved include:

- ▶ **Energy project officer** - Support the project managers in managing project budgets, monitoring expenditure and costs, realising project outputs and looking after technical equipment
- ▶ **Offshore consent manager** - support development of an offshore renewable energy project
- ▶ **Programme assistant to energy company** - First point of contact for small business to help them start their energy saving process with referral to in-depth technical support when needed

The great outdoors

When thinking about the environment it seems natural to consider the great outdoors and there are plenty of roles that focus on protecting the land and wildlife around us. There are 15 national parks in the UK, covering over 10% of the land mass and welcoming 100 million visitors each year. They need looking after! Then there's local parks and commons, a myriad of stately homes with public access, and hundreds of nature reserves. Roles to consider:

- ▶ **Forestry creation officer** - Increase tree cover to 30% in the country's largest environmental regeneration initiative
- ▶ **Gardening assistant** - Traineeship to develop sustainable gardens in public access country estates
- ▶ **Nature conservation grazing manager** - manage livestock, with admin skills to record key information relating to stock welfare and habitat condition

Farming, food production & distribution

We can't live without food! There may be variances in the impact of meat or meat free diets, but all our food has a significant environmental impact. It's not just in growing/producing it. Take a stroll round the supermarket to see first hand what's involved.

Food has to be harvested, processed, packaged and transported. Any role within the food industry has the potential to be 'green', including educating people to eat local, natural and in-season produce. You need only look at what sells in s/markets to know that for many consumers convenience often trumps good intentions. Jobs include:

- ▶ **Buyer** - Senior Tea Buyer and Blender and Ethical Sourcing Manager
- ▶ **Consultant** - deliver effective solutions to complex environmental problems occurring in agricultural
- ▶ **Head of food transformation** - support the food retail sector to deliver sustainable, healthy and affordable food for all

And some surprises...

Your teen doesn't have to go mainstream to find a role they love. If they have interest, passion and the curiosity to find out more, they can find a job that's rewarding and satisfying - it might just need a little imagination and investigation! How about:

- ▶ **Amusement ride inspector** - ensuring health and safety of all rides
- ▶ **1st Option Safety** - providing health and safety training to the media and broadcasting industry, creating simulated terrorist situations to train reporters before they go to war zones
- ▶ **Urban grower** - indoor farming to produce pesticide free food using less water and fertilizer than traditional methods

► Does your teen have green credentials?

Show don't tell! If your teen is interested in a green career, they should try to get some first-hand experience to demonstrate their personal commitment and values. This could be joining environmental groups, helping community clear-ups, and most of all being able to demonstrate their own personal steps in being green (such as buying less and avoiding fast fashion, choosing local foods, recycling, using green transport).

If they're taking a gap year between school and university, many voluntary projects overseas involve green initiatives, such as providing access to clean water, making communities more resilient or conservation interventions - and there's no experience required.

► How you can get involved with Green Careers Week

- ▶ Follow [@Green_Careers](#), [@CareersWeek](#) and [@parentsguideto](#) on Twitter to explore what's on offer and download resources, films and opportunities as they're released
- ▶ Have conversations with your teen about their future and what careers interest them. Use the Green Careers Week resources to help guide conversations
- ▶ Look out for [#GCW2022](#) because many businesses will be visiting schools and colleges to showcase their green careers throughout the week
- ▶ If you're based near Lincoln, why not pop along to the Green Careers Week employer event on 9 November between 10.00 and 14.00 at Lincoln College
